

Listener supported K-Love 89.9 FM provides christian music to an area that is unable to pick up this type music. Several local commercial stations have come and gone even before k-love entered the scene. This stations provides my children & grandchildren family friendly music. I believe that this type music should continue for our enjoyment. If it were not for k-love and airone this area would not get to here this type music. Our choices would be narrowed to only secular music and talk programing. Please keep our FM translator so that we have more freedom of choice.
